Democrats' Second Attempt to Nationalize Elections

This week, Democrats again attempted to nationalize our elections by bringing the so-called *Freedom to Vote Act* to the floor. Like the similarly misnamed *For the People Act*, this bill is just the Democrats' latest effort to rebrand their unpopular, unpassable attempt to nationalize elections and achieve long-term job security by tipping the scales of future elections in their favor.

This power grab is a flawed, partisan effort to override state election laws and overrule reasonable methods that ensure it's easy to vote and hard to cheat. This so-called election reform isn't for America. It's for the Democrats to keep the majority.

Remembering Colin Powell

General Colin Powell was a patriot—stepping up to serve our nation throughout his entire life starting in ROTC to his leadership as the National Security Advisor to his chairmanship of the Joint Chiefs of Staff to serving as Secretary of State during one of America’s darkest days.

General Powell was a great man who put his country and his family above all else, and I am grateful for his decades of service to our nation. As the Powell family grieves, I hope they know the American people are thinking of them.

Appalling Invasion of Privacy by the Biden Administration

The Biden Administration's plan to allow the IRS to monitor Americans' bank accounts is a breathtakingly terrible idea.

If this proposal is implemented, Americans will lose their privacy. The IRS also won't know what to do with the information provided, which opens the door for it to then push for more

information about individual transactions and who knows what else. This is a dangerous slippery slope.

This is the same IRS that discriminated against conservative groups and leaked personal tax information.

This wildly flawed proposal should never see the light of day. I joined a few of my Republican Senate colleagues for a [press conference](#) to highlight the flaws with this proposal.

Judge Sylvia Rambo: Trailblazer

Judge Sylvia Rambo is a trailblazer—serving as the first female on the bench of the Pennsylvania Court of Common Pleas for Cumberland County and the U.S. District Court for the Middle District of Pennsylvania. A few weeks ago, my legislation to designate the new U.S. Courthouse in Harrisburg as the “Sylvia H. Rambo United States Courthouse” was approved. Her commitment to the law and the Commonwealth of Pennsylvania is admirable, and, through this new courthouse, her judicial legacy will be enshrined for generations of Pennsylvanians to appreciate.
